

## Speech Sound Assessment Solutions

### Woodcock-Camarata Articulation Battery

Speech-language pathologists (SLPs) who evaluate young children and adults for speech sound disorders need time-efficient, cost-effective, and reliable diagnostic assessment instruments. Speech articulation tests that meet these needs can play a critical role in identifying errors, error patterns, and treatment options for individuals of all ages, empowering them to better communicate and connect with the world around them.

The innovative Woodcock-Camarata Articulation Battery (WCAB) facilitates expert assessment of speech sound disorders while providing a streamlined user experience. This complete articulation assessment features straightforward scoring, customizable data-driven reports, and is available for immediate use from any computer. After the program has been downloaded, no further on-line connection is required. Serving preschool (18 months) to geriatric (90 years) populations, the WCAB provides a short administration time and assists in identifying error patterns with expert precision.

### COMPREHENSIVE ASSESSMENT

- » In-depth assessment in a short period of time
- » No need to listen for individual targeted phonemes within whole words
- » Identifies errors, error patterns, stimulability, and treatment options
- » Examinee views stimuli on a small secondary monitor
- » No internet access necessary to administer and generate report
- » Immediate test report that includes diagnostic implications and recommendations
- » Norm-referenced with developmental ages
- » Screener and full battery options

### PRODUCT INFORMATION

- » **Authors:** Richard Woodcock, Stephen Camarata, Mary Camarata
- » **Ages:** Preschool to geriatric populations
- » **Format:** Computerized administration, scoring, and reports
- » **Administration Time:** 15 – 20 minutes
- » **Content:** 72 phonemes including consonants, vowels and blends
- » **Scores:** Total Articulation, Intelligibility, Individual Phonemes

## MATERIALS & PRICING

<b>WCAB Introductory Kit</b> .....	\$250.00
(includes license fee, digital manual, score reports, 100 administration credits*)	
<b>Digital Manual</b> .....	\$75.00
<b>Administration Credits</b>	
100 credits .....	\$100.00
1,000 credits .....	\$850.00
5,000 credits .....	\$3,500.00

\*Administration of Word Intelligibility Test consumes 1 credit; administration of Phoneme Stimulability Test consumes 1 credit; administration of Comprehensive Speech Articulation Test (includes measures of word intelligibility and phoneme stimulability) consumes 4 credits. A computer generated report with standardized scores and recommendations is included free of charge with the administration of each test.

## EXAMPLE of STANDARDIZED SCORES PROVIDED in WCAB REPORT

	Performance		Developmental Level			Proficiency			Standing	
	Observations	Percent Correct	GS <sup>1</sup>	SEM (GS)	DA <sup>2</sup>	DIFF (GS) <sup>3</sup>	RMI <sup>4</sup>	Articulation Level	PR	SS
<b>1 Comprehensive Speech Articulation</b>										
Total Test	459	75	517	3.29	3.2	-43	7/90	very limited	0.5	61
